

Teachable Moments

Early Learning Center

The goal at Teachable Moments is to prepare and ensure that your Toddlers day is enriching. Our environment is specifically designed to meet the physical, emotional and developmental needs of toddlers.

Toddlers are active, curious and exploratory. Your child will be given the opportunity to look, touch, put together and take things apart. They will experiment with words and hear language. Our program is designed to stimulate your child's senses, which will be the foundations of future learning. These goals are attained with the use of age appropriate materials and a theme base curriculum. I believe that children need a balance of child initiated and teacher facilitated activities each day.
